

# Corporate Use License

Freedonia®

**Share  
the knowledge  
Lower the cost  
Empower decisions**

## Corporate Use License

All Freedonia studies are available in electronic format using Adobe's Portable Document Format (PDF). Our Corporate Use License option provides:

- Full study in searchable text
- Cut and paste capability, for internal use, into presentations, reports, and business plans
- Unlimited use of the study — it can be shared by all decision makers in your company including key executives, business planners, sales managers, market analysts, etc.
- Right to internally e-mail the full study
- Permission to reprint, for internal use only, all or part of the study — as many times as you like
- Authority to place the study on your corporate or departmental Intranet or “share” directory

Of course, we retain our copyright and require that you reference us as the source when including our study intelligence in any document.

## Pricing

The Corporate Use License option is available for only \$2,600, in addition to the underlying study price. Share the knowledge and order one with your next study, or for a study you already own.
