## ABOUT THIS REPORT

### Scope & Method

This report forecasts US wood flooring demand in square feet and US dollars at the manufacturers' level to 2019. Total demand in both value and area terms is segmented by product in terms of:

- engineered wood flooring
- solid wood flooring.

To illustrate historical trends, total demand in both value and area terms is provided in annual series from 2004 to 2014; the various segments are reported at five-year intervals for 2009 and 2014.

This report quantifies trends in various measures of growth. Growth (or decline) expressed as an average annual growth rate (AAGR) is the least squares growth rate, which takes into account all available datapoints over a period. Growth calculated as a compound annual growth rate (CAGR) employs, by definition, only the first and last datapoints over a period. The CAGR is used to describe forecast growth, defined as the expected trend beginning in the base year and ending in the forecast year. Readers are encouraged to consider historical volatility when assessing particular annual values along the forecast trend, including in the forecast year.

Key macroeconomic indicators are also provided at five-year intervals with CAGRs for the years corresponding to other reported figures. Other various topics, including profiles of pertinent leading suppliers, are covered in this report. A full outline of report items by page is available in the [Table of Contents](#).

### Sources

*Wood Flooring: United States* (FF20014) is based on [Hard Surface Flooring](#), a comprehensive industry study published by The Freedonia Group in April 2015. Reported findings represent the synthesis and analysis of data from various primary, secondary, macroeconomic, and demographic sources including:

- firms participating in the industry, and their suppliers and customers
- government/public agencies
- national, regional, and international non-governmental organizations
- trade associations and their publications
- the business and trade press
- indicator forecasts by The Freedonia Group
- the findings of other industry studies by The Freedonia Group.

Specific sources and additional resources are listed in the [Resources](#) section of this

publication for reference and to facilitate further research.

## Industry Codes

The topic of this report is related to the following industry codes:

NAICS/SCIAN 2007		SIC	
North American Industry Classification System		Standard Industry Codes	
321918	Other Millwork (including Flooring)	2426	Hardwood Dimension and Flooring Mills
423310	Lumber, Plywood, Millwork, and Wood Panel Merchant Wholesalers	2431	Millwork
		5031	Lumber, Plywood, Millwork, and Wood Panels
