## ABOUT THIS REPORT

### Scope & Method

This report forecasts US flavor and fragrance demand and production in US dollars at the manufacturers' level to 2020. Total demand is segmented by product in terms of:

- flavor blends
- fragrance blends
- essential oils and natural extracts
- aroma chemicals.

Although they are important flavoring agents, flavor enhancers, artificial and natural sweeteners, and separately sold spices are not included in the scope of this report. However, in some instances this report includes mixtures of flavor chemicals that contain the aforementioned items.

Total demand is also segmented by market as follows:

- food and beverages
- toiletries and cleaners
- other markets such as pharmaceuticals, environmental fragrances, and tobacco.

To illustrate historical trends, total demand and total production are provided in annual series from 2005 to 2015; the various demand segments are reported at five-year intervals for 2010 and 2015.

This report quantifies trends in various measures of growth. Growth (or decline) expressed as an average annual growth rate (AAGR) is the least squares growth rate, which takes into account all available datapoints over a period. Growth calculated as a compound annual growth rate (CAGR) employs, by definition, only the first and last datapoints over a period. The CAGR is used to describe forecast growth, defined as the expected trend beginning in the base year and ending in the forecast year. Readers are encouraged to consider historical volatility when assessing particular annual values along the forecast trend, including in the forecast year.

Key macroeconomic indicators are also provided at five-year intervals with CAGRs for the years corresponding to other reported figures. Other various topics, including profiles of pertinent leading suppliers, are covered in this report. A full outline of report items by page is available in the [Table of Contents](#).

### Sources

*Flavors & Fragrances: United States (FF35020)* is based on [World Flavors &](#)

[Fragrances](#), a comprehensive industry study published by The Freedonia Group in March 2016. Reported findings represent the synthesis and analysis of data from various primary, secondary, macroeconomic, and demographic sources including:

- firms participating in the industry, and their suppliers and customers
- government/public agencies
- national, regional, and international non-governmental organizations
- trade associations and their publications
- the business and trade press
- indicator forecasts by The Freedonia Group
- the findings of other industry studies by The Freedonia Group.

Specific sources and additional resources are listed in the [Resources](#) section of this publication for reference and to facilitate further research.

## Industry Codes

The topic of this report is related to the following industry codes:

NAICS/SCIAN 2007		SIC	
North American Industry Classification System		Standard Industry Codes	
311930	Flavoring Syrup and Concentrate Mfg	2087	Flavoring Extracts and Flavoring Syrups, NEC
325199	All Other Basic Organic Chemical Mfg		
325620	Toilet Preparation Mfg	2844	Perfumes, Cosmetics, and Other Toilet Preparations
325998	All Other Miscellaneous Chemical Product and Preparation Mfg	2869	Industrial Organic Chemicals, NEC
		2899	Chemicals and Chemical Preparations, NEC
