

SECURITY ALARMS MARKET IN THE US

Industry Study #3533 | July 2017

This Freedonia study analyzes the \$3.8 billion US security alarm market. It presents historical demand data (2006, 2011, 2016) plus forecasts (2021) by product (life safety, intrusion, PERS and related) and market (consumer, trade and distribution, industrial, financial institutions, government, services, offices, healthcare, educational, air transport, lodging, other institutional). The study also offers company market share and analysis of key players such as Bosch, Honeywell, Johnson Controls, Melrose Industries, Royal Philips, Siemens, Tunstall Healthcare and UTC.
