

Industry Study #3536

US HVAC MARKET FORECASTS

June 2017

This Freedonia industry study provides historical demand data (2006, 2011, and 2016) plus forecasts for 2021 by product type (air conditioning equipment, dehumidifiers & humidifiers, heat pumps, and heating equipment), energy source (electricity, natural gas, heating oil and other), market (commercial and residential), and US region. Demand is presented in both dollars and units. The study also evaluates company market share and analyzes leading producers, including Daikin Industries, Ingersoll-Rand, Johnson Controls, Lennox, LG Electronics, Nortek, Rheem, SPX, and United Technologies.
