

GLOBAL WATER TREATMENT CHEMICALS OUTLOOK

Industry Study #3537 / June 2017

This Freedonia industry study analyzes the \$25.4 billion global industry. It presents historical demand data (2006, 2011, and 2016) plus forecasts for 2021 by product (corrosion & scale inhibitors, coagulants & flocculants, biocides, pH adjusters, defoamers, chelating agents), market (manufacturing, municipal, and other), and region. The study also evaluates company market share and provides analysis on industry participants such as BASF, Dow Chemical, Ecolab, General Electric, Kemira, SNF, Occidental Petroleum, and Solenis.
