

GLOBAL ELEVATOR EQUIPMENT & SERVICES MARKET

Industry Study #3542 | July 2017

This Freedonia industry study examines the \$97 billion worldwide elevator equipment and services market. It presents historical demand data (2006, 2011, and 2016) plus forecasts for 2021 by product (passenger & freight elevators, escalators & moving walks, parts & other equipment, installation services, modernization & repair services), market (residential, nonresidential), elevator unit data (elevator stock and new elevator unit demand), and world region plus 20 major countries. This study also evaluates company market share and analyzes major industry players.
