

GLOBAL FOOD PROCESSING MACHINERY

Industry Study #3574 | September 2017

This Freedonia study looks at the global food processing machinery market. It offers historical demand data (2006, 2011, 2016) and forecasts for 2021 by machinery type (industrial bakery; meat, poultry, and seafood; beverage production; chocolate & confectionery; dairy and milk; fruit, nut, & vegetable; other; and parts and attachments) and by global region. Demand is presented in dollars. This study also evaluates company market share and analyzes key players such as Ali, Bühler, GEA Group, John Bean Technologies, Marel, Meyn Food Processing (Berkshire Hathaway), SPX FLOW, and Tetra Laval.
