

# Lawn & Garden Hand Tools & Wheeled Implements in the US

Industry Study #3581 | April 2018

This study analyzes the \$880 million US lawn and garden hand tool and wheeled implement markets. It presents historical demand data (2007, 2012, 2017) and forecasts for 2022 by product (long-handled tools, cutting tools, striking tools, handheld tools, and wheelbarrows/carts and spreaders) at manufacturers' level and retail level. It also provides similar data at retail level for lawn and garden hand tool and wheeled implement sales by retail channel (home centers, hardware stores, discount stores, lawn and garden specialty stores, e-commerce). The study also discusses marketing, product development, and consumer trends, evaluates company market share, and analyzes US industry players including AMES, Corona, Fiskars, Scotts Miracle-Gro, Seymour Midwest, and Truper.
