

Automotive Lubricants Market in Malaysia

Industry Study #3600 | January 2018

This Freedonia industry study analyzes the 203,000-metric-ton automotive lubricants market in Malaysia. It presents historical demand data (2006, 2011, 2016) and forecasts for 2021 by market (light vehicles, medium & heavy vehicles, off-highway equipment, motorcycles), by product (engine oils, transmission & hydraulic fluids, gear oils & greases), and formulation (conventional, synthetic, re-refined/bio-based). The study also evaluates company market share and analyzes industry suppliers including BP, Chevron, Exxon Mobil, PETRONAS, and Shell.
