

Global Plastics Processing Machinery

Industry Study #3603 | January 2018

This Freedonia study analyzes the worldwide plastics processing machinery market. It offers historical demand data (2006, 2011, 2016) and forecasts for 2021 by product (injection molding, extrusion, blow molding, 3D plastics printers, thermoforming and other types; and aftermarket parts) and by market (packaging, consumer/institutional, construction, motor vehicles, other). Trade and shipment totals for 23 countries are also given. In addition, market share evaluations are provided for key players, including Haitian International, KraussMaffei Group (China National Chemical), Husky Injection Molding, and ENGEL.
