

# Home Kitchen & Bathroom Remodeling in the US

Industry Study #3604 | March 2018

This Freedonia study analyzes the \$69 billion US home kitchen and bathroom remodeling market. It offers historical demand data (2007, 2012, 2017) and forecasts for 2022 by room (kitchen and bathroom); by product (cabinets, countertops, plumbing, flooring, lighting fixtures); and by type of spending (installed products, measured at both the manufacturers' level and the retail level, and installation services). In addition, the study evaluates factors that will promote home kitchen and bathroom remodeling spending and examines the role of such companies as remodeling specialists and big-box retailers.
