

# Silicones Market in the US

Industry Study #3608 | February 2018

This study analyzes the \$3.5 billion US silicones market. It presents historical demand data (2007, 2012, 2017) and forecasts for 2022 by product (fluids, elastomers, resins, gels), market (motor vehicle, electronics, machinery, oil & gas, aerospace & other transportation, plastic processing, utilities, pulp & paper, textile products, motor vehicle polish, cosmetics & toiletries, construction, medical), and function (adhesives & sealants, elastomeric components, paints & coatings, emollients & conditioning agents, surfactants, lubricants & greases, defoamers, polishes). The study also evaluates company market share and analyzes industry participants including DowDuPont (Dow Corning), Elkem Silicones, Evonik Industries, Momentive Performance Materials, Shin-Etsu Chemical, and Wacker Chemie.

Table 5-1 | Silicone Demand by Function, 2007 – 2022 (million dollars)

Item	2006
<b>Silicone Demand</b>	<b>2853</b>
Adhesives & Sealants	707
Elastomeric Components	500
Paints & Coatings	430
Emollients & Conditioning Agents	255
Surfactants	216
Lubricants & Greases	190
Defoamers	165
Polishes	141
Other Functions	249
<b>\$/lb</b>	<b>3.50</b>
<b>Silicone Demand (mil lb)</b>	<b>811</b>
