

Food Containers in the US

Industry Study #3609 | April 2018

This study analyzes the \$33.2 billion US food container industry. It presents historical demand data (2007, 2012, 2017) and forecasts for 2022 by product (pouches, bags, cartons, cans, bottles, jars, clamshells, tubs, cups, bowls), material (flexible bags & pouches, rigid plastic, paperboard, metal, glass), and market (dairy products, fresh produce, meat, poultry, seafood, eggs, perishable prepared foods, baked goods, snack foods, processed fruits & vegetables, pet food, sauces & condiments, candy & confections, frozen specialties, soups & canned specialties). The study also reviews materials utilized, evaluates market share and analyzes industry competitors including Bemis, Berry Global, Graphic Packaging, Silgan, and WestRock.
