

# Automotive Lubricants Market in Canada

Industry Study #3621 | February 2018

This Freedonia study analyzes the 390,000 metric ton automotive lubricants market in Canada. It offers historical demand data (2006, 2011, 2016) and forecasts for 2021 by market (light vehicles, medium & heavy vehicles, off-highway equipment), product (engine oils, transmission & hydraulic fluids, gear oils & greases), and formulation (conventional, synthetic, re-refined/bio-based). The study also evaluates company market share and analyzes key industry suppliers including BP, Chevron, Exxon Mobil, Petro-Canada (HollyFrontier), and Shell.
