

Adhesives & Sealants in the US

Industry Study #3623 | April 2018

This study examines the 5.9 billion pound US adhesives and sealants market. It presents historical demand data (2007, 2012, 2017) and forecasts for 2022 by product – including water-based, reactive, hot melt, solvent-based, natural, and other formulations. Data is also presented for markets – including packaging, manufacturing and assembly, construction, tapes and labels, and consumer and other. In addition, the study evaluates market share and analyzes key industry players such as DowDuPont, HB Fuller, Henkel and RPM International.
