

# Global Mining Equipment

Industry Study #3629 | October 2018

This study reviews the \$98 billion global mining equipment market. It presents historical demand (2007, 2012, 2017) and forecasts for 2022 and 2027 by product (surface mining equipment; underground mining equipment; drills & breakers; crushing, pulverizing, & screening equipment; mineral processing & other; parts & attachments). Mining equipment demand is also presented by market (iron ore, copper, bauxite, other metals, aggregates, phosphate rock & potash, other minerals, bituminous & subbituminous coal, and anthracite & other coal). The study also evaluates company market share and analyzes global industry players including Atlas Copco, Caterpillar, Hitachi Construction Machinery, Komatsu, Liebherr-International, Metso, Sandvik, and thysenkrupp.

**Table 8-4 | Russia Mining Equipment Demand by Market, 2007 – 2027**  
(million dollars)

Item	2007
<b>Mining Equipment Demand</b>	<b>3460</b>
<b>Metals Mining:</b>	<b>1420</b>
Iron Ore	840
Copper	327
Bauxite	36
Other Metals	217
<b>Minerals Mining:</b>	<b>900</b>
Aggregates	369
Phosphate Rock & Potash	189
Other Minerals	342
<b>Coal Mining:</b>	<b>1140</b>
Bituminous & Sub-Bituminous	750
Anthracite & Other Coal	390
