

Global Acoustic Insulation

Industry Study #3708 | May 2019

This study reviews the \$9.0 billion global acoustic insulation market. It presents historical demand data (2008, 2013, 2018) and forecasts for 2023 and 2028 by material (foamed plastic, fiberglass, mineral wool, other) and by market (residential building, nonresidential building, industrial and plant equipment, HVAC/air distribution, transportation equipment, and other). The study also evaluates company market share and analyzes key suppliers such as Armacell International, BASF, Berkshire Hathaway (Johns Manville), Covestro, CSR, Fletcher Building, Huntsman, K-Flex, Kingspan, Knauf Gips, Owens Corning, Recticel, ROCKWOOL International, Saint-Gobain, and Xella International.

Table 8-8 | South Korea: Acoustic Insulation Demand by Material, 2008 – 2028
(million dollars & thousand metric tons)

Item	2008
Acoustic Insulation Demand (mil \$)	<u>209</u>
Foamed Plastic	128
Fiberglass	50
Mineral Wool	22
Other Materials	9
\$/kg	2.07
Acoustic Insulation Demand (000 m tons)	<u>101</u>
Foamed Plastic	46
Fiberglass	24
Mineral Wool	23
Other Materials	8
