

Global Filters

Industry Study #3711 | April 2019

This industry study examines the \$69.6 billion worldwide filter market. It presents historical demand (2007, 2012, 2017) and forecasts for 2022 and 2027 by product (oil filters, air intake filters, fuel filters, other internal combustion engine filters, fluid power filters, consumer water filters, other fluid filters, panel and air pocket filters, fabric air filters, and other air filters) and market (motor vehicles, motorcycles, other transportation equipment, manufacturing, consumer, utilities, off-road equipment, and other markets). The study also evaluates company market share and analyzes global industry participants such as Camfil, Cummins, Daikin, Danaher, Denso, Donaldson, MAHLE, MANN+HUMMEL, and Parker-Hannifin.
