

Global Abrasives

Industry Study #3727 | May 2019

This study covers the global abrasives market. Demand by product and market is presented in US dollars. For each selected country, demand is presented by product (coated abrasives, bonded abrasives, loose abrasive grains & powders, metallic abrasives) and by market (machinery manufacturing; transportation equipment; electrical & electronic equipment; fabricated metals; and other markets such as construction and cosmetic & toiletry products). Also provided is demand for abrasive raw materials at the global level, segmented into manufactured minerals, natural minerals, and metallic materials.
