This Freedonia industry study analyzes the $46 billion global farm tractor market. It presents demand for 2009, 2014, and 2019, and forecasts for 2024 and 2029 by product type (wheeled tractors, crawler tractors, and pedestrian controlled tractors) for 20 countries. The study also evaluates production and trade at the world level and examines other important factors, ranging from technological innovation to regulations to competition from used models.
