List of Tables

SECTION I -- DEMOGRAPHICS

1. China Population by Region & Age
(million persons) 1
2. China Urban Population by Region
(million persons) 2
3. China Households by Region
(million units)..... 3

SECTION II -- MACROECONOMY

1. China Gross Domestic Product
(billion yuan)..... 5
2. China Gross Domestic Product
(billion 2010 yuan) 6
3. China Gross Domestic Product
by Region (billion yuan) 7
4. China Gross Domestic Product
by Region (billion 2010 yuan) 8
5. China Personal Consumption
Expenditures (billion yuan) 8
6. China Gross Fixed Capital Formation
(billion yuan & billion 2010 yuan)..... 9

SECTION III -- INDUSTRIAL ACTIVITY

1. China Manufacturing Value Added
(billion yuan).....11
2. China Manufacturing Value Added
(billion 2010 yuan)12
3. China Manufacturing Value Added,
Deflator Series (deflators, 2010=100)....13
4. China Manufacturing Value Added
by Region (billion yuan)14
5. China Energy Production & Consumption
by Source (quadrillion Btu)15

SECTION IV -- MOTOR VEHICLES

1. China Motor Vehicle Production
(thousand units)16
2. China Motor Vehicle Retail Sales
(thousand units)17
3. China Motor Vehicles in Use
(million units).....18

SECTION V -- CONSTRUCTION

1. China Construction Expenditures by Type
(billion yuan & billion 2010 yuan).....19
2. China Construction Expenditures by Region
(billion yuan & billion 2010 yuan).....20

Composites Overview

The contents of our China Composite Forecasts consist of tables that set forth historical and forecast series for numerous economic indicators developed by the Freedonia Group's economics department. These are the same series used by our industry analysts in the preparation of our various industry studies. For each series, historical figures are presented for 2001, 2006 and 2011; forecasts are provided for 2016 and 2021.

Unlike Freedonia's typical industry study, composites contain no text, so there is no narrative that explains the analysis behind the forecasts. However, an informative title describes the contents of each table. For a complete listing of the specific items contained in a particular table, please contact our Client Services Department at 1.800.927.5900 (US) or 440.684.9600 (international).

The economic series presented in these composites were prepared in June 2012.

About The Freedonia Group

The Freedonia Group, Inc., is a leading international industry market research company that provides its clients with information and analysis needed to make informed strategic decisions for their businesses. Studies help clients identify business opportunities, develop strategies, make investment decisions, and evaluate opportunities and threats. Freedonia research is designed to deliver unbiased views and reliable outlooks to assist clients in making the right decisions. Freedonia capitalizes on the resources of its proprietary in-house research team of experienced economists, professional analysts, industry researchers and editorial groups. Freedonia covers a diverse group of industries throughout the United States, the emerging China market, and other world markets. Industries analyzed by Freedonia include:

• Chemicals • Plastics • Life Sciences • Packaging • Building Materials • Security & Electronics • Industrial Components & Equipment • Automotive & Transportation Equipment • Household Goods • Energy/Power Equipment

Freedonia Custom Research

Freedonia Custom Research delivers the same high quality, thorough and unbiased assessment of an industry or market as an industry study. Since the research initiative is based upon a company's specific needs, companies harness Freedonia's research capabilities and resources to answer unique questions. When you leverage the results of a Freedonia Custom Research engagement, you are able to obtain important answers to specific questions and issues associated with: mergers and acquisitions, new product launches/development, geographic expansion, entry into new markets, strategic business planning, and investment and funding decisions.

Freedonia Custom Research is ideal for companies seeking to make a strategic difference in the status quo and focus on future business growth. Working side by side with clients, Freedonia's team is able to define a research project that is custom-tailored to answer specific questions and provide the basis from which a company can make informed business decisions.
