# About Freedonia Focus Reports

Freedonia Focus Reports are made up of reports from the following brands. They include both US & global coverage.

The Freedonia Group is a leading international industrial research company publishing more than 100 studies annually. More than 90% of the industrial companies in the Fortune 500 use Freedonia Group research to help with their strategic planning.

Kalorama Information supplies the latest in independent medical market research in diagnostics, biotechnology, pharmaceuticals, medical devices, and health care. Their comprehensive, timely, quality research and innovative approach to analysis and presentation of market intelligence have made them a premier source of market information for top industry decision makers.

Packaged Facts has been a leading publisher of market research in the food, beverage, consumer packaged goods, and demographic sectors for more than 50 years. Their expertise on consumer markets includes consumer goods and retailing, foods and beverages, demographics, pet products and services, and financial products.

Simba Information is widely recognized as the premier authority for market intelligence in the education and professional publishing industries. Their extensive information network has been delivering valuable independent perspective on the people, events, and alliances shaping the media and information industry since 1989.
